Barriers Barriers are not child proof, but they provide layers of protection for a child when there is a lapse in adult supervision. Barriers give parents additional time to find a child before the unexpected can occur. Barriers include a fence or wall, door alarms for the house, and a power safety cover over the pool.

Safety Barrier Guidelines for Residential Pools

Barriers are defense systems or safety devices that could prevent a specific accident. Hence, in a root casue analysis, the line of questioning would delve into the causal factors that led to their breakdown. For all intents and purposes, they are in place to make it impossible for a root cause to flourish.
