Atomic Clocks may also be set manually and be very accurate. Simply insert the battery, press your time zone and then press the flap just above the left side of the battery. Hold until you reach the correct time and then release. Your clock is now an accurate quartz clock until it will find the signal.

Radio Controlled Analog Clock Instructions - The Clock Depot

The Atomic clock does not get a continuous signal; it needs only to get a synchronization signal, usually received at night. When you first power it up by placing the battery in, you press the correct time-zone button to tell it what offset to apply to the broadcast signal (e.g. "Add two hours for Eastern time" or "Add one hour for Central time ...
